

Steel Formed Sections Ltd is committed to be an industry leader in our health & safety, environmental and quality performance. To achieve this objective, the Company will maintain an effective and efficient Quality Management System based upon the requirements of ISO 9001:2015.

In particular, the Company will:

- Set measurable objectives that will help achieve customer requirements, including:
- Monitor and measure the effectiveness of its business processes and objectives through Management Reviews and the internal audit process.
- Proactively seek feedback from customers on how well its products and services meet their requirements and set objectives for continual improvement.
- Analyse the causes of any complaint or problem and take appropriate action to prevent a recurrence.
- Select and collaborate closely with suppliers who enable the Company to create and deliver a reliable performance.
- Recruit employees who are customer-focused and support them with appropriate training and systems to ensure their competence always meets the Company's requirements.
- Provide a work environment that promotes the well-being of its employees and encourages positive teamwork.
- Encourage all employees to identify problems and make suggestions to improve all aspects of the Company's products and services and business processes.
- Ensure that the Company complies with all necessary regulatory and legal requirements.
- The continual improvement of the Company's Quality Management System is fundamental to the success of its business and must be supported by all employees as an integral part of their daily work.

It is the aim of Steel Formed Sections to remain as a market leader through the continued growth and development of the company. It is the policy of the company to deliver our products on time and to the highest possible quality standard. As a company we will continuously look and review our processes for risks and opportunities which we will then use to set ourselves Objectives and Targets to constantly push for improvement's shall constantly review the requirements of our customers, our stakeholders and regulators to ensure we not only meet these requirements but where possible exceed them.

Quality Management System Scope

The scope of the quality management system will cover the process and subsidiary elements directly related to the supply of formed steel products to the market from design through to final supply to the customer, while allowing for data collection on in situ products to inform future product development. This quality management system will support Steel Formed Sections Ltd. in their responsible sourcing activities. Our employees have committed to follow the following principles and guidelines of the ***"BRE Environmental and Sustainability Standard - BES 6001:Issue 4.0- Framework Standard for Responsible Sourcing"*** as per our bre certificate number : RS0049 Issue:05.

Steel Formed Sections will use the quality management system in support and enforce responsible sourcing activities that have been assigned to subcontracted parties.
