

Waste Policy

In the interest of good environmental management, Steel Formed Sections (SFS) Ltd actively seeks to limit any potential negative impact that its business activities may have on the environment and accepts its corporate responsibilities in contributing towards environmental improvement and is dedicated to sourcing the raw materials for our products under the guidelines of the **“BRE Environmental and Sustainability Standard - BES 6001:Issue 4.0-Framework Standard for Responsible Sourcing”** as per our **bre certificate number : RS0049 Issue:05**.

Accordingly, through the Waste Minimisation Policy and related objectives, Steel Formed Sections (SFS) Ltd will:

- a) Comply with legislation covering disposal of hazardous waste such as batteries, printer cartridges and WEEE etc.
- b) Promote economic use of office paper and printer cartridges by encouraging staff to use email facilities, to re-use paper where possible, to avoid unnecessary printing and to use double-sided printing formats.
- c) Adopt paper-free billing options wherever possible.
- d) Where purchase recycled or sustainable products and those which, in turn, can be recycled.
- e) Provide segregated recycling bins throughout its premises for production waste, cans, paper, plastic, glass and cardboard.
- f) Where practical plan to donate obsolete equipment such as computers, mobile phones etc. to benefit charity.
- g) Promote awareness of the Waste Minimisation Policy amongst employees, sustaining current effective procedures and encouraging good practice in additional areas.
- h) Measure and report on activities and progress on targets through the annual Management Reviews.

Steel Formed Sections (SFS) Ltd will review the Waste Minimisation Policy on a regular basis to incorporate all new regulations, initiatives and technologies.
